2	The tutorials and lectures could be better sychronised.	Dec 2, 2010 10:05 AM
3	I didn't really understand the TAs english, I left the class with more questions than when I came. He often didn't explain the answers to the questions, just wrote them on the acetate and moved along too quick.	Dec 2, 2010 10:23 AM
4	Harder questions, longer questions	Dec 2, 2010 10:41 AM

15	Sample answers should be provided	Dec 4, 2010 1:13 AM
16	trying to fit too much into one hour, would be more helpful if the ta was able to focus on some of the harder q's and the worked solutions to the rest were available online rather then attempting to cover all the questions in 50mins.	Dec 4, 2010 5:05 PM

2	Online questions are very helpful (partly, because the answers are released then). Last year's myeconlab was very useful. Perhaps EC2010 should be given something similar Thank you	Dec 2, 2010 1:15 PM
3	It has been tough and it could be made a lot easier	Dec 2, 2010 2:56 PM
4	very good TA with regards to explaining material.	Dec 2, 2010 6:34 PM
5	I found it very difficult to keep up with this module because I'd go through the notes, read the chapter in the book and do the review questions at the end and get on grand. Then I'd go to the tutorial questions and not have clue where to start. I think the tutorials are brilliant but it would be great if links to different similar exam style questions were put on the internet as well as solutions so we could get more practise with these kind of questions.	Dec 2, 2010 9:50 PM
6	Solutions to problem sets are really needed as when revising the work ourselves we cannot tell if our answers are right or wrong.	Dec 2, 2010 11:19 PM
